

CLOTHING AND FOOTWEAR SUGGESTION

The park floor is a mixture of sand and gravel areas, mostly hard, not constituting a major difficulty for locomotion in general.

Visitors with reduced mobility or with baby carriages may experience some difficulty in areas with loose floors.

As it is an open-air park, we recommend suitable clothing and footwear depending on the time of year of the visit.

Due to the large size of the park, we advise you to wear light shoes, suitable for long walks.
